Task 2: create query chain

Deliverable: A working query-response flow that can answer questions

Task 3: Add Conversational memory

Deliverable: A Flowise chatbot that maintains short-term conversation context.

The below screenshots shows these 2 task deliverables, 1st question answering the query and 2nd one answering the follow up question i.e, using buffer memory

Hi there! How can I help?

is emerald chocker available?

Yes, the Emerald Choker is available. It is made of 22K Gold and weighs 32.0 g, priced at 310000.

Jewellery Produ... ProductID: E301... Diamond Weight:...

what is its price?

The price of the Emerald Choker is 310000.

Task 4: Customisation and Testing

Deliverable: Evidence of testing (queries + responses) and out-of-stock handling with an appropriate alternative suggestion (based on the catalogue).

The below outputs shows the responses on the material based questions, the product that is not part of the catalogue, the bot not giving false information to the questions out of its context, when asked about biryani it responded saying “I’m sorry I don’t have information about that in the catalogue”

can you tell me which earrings are available?

The available earrings are:

1. Daily Wear Gold Earrings - 22K Gold, 7.5 g, priced at 55000.
2. Diamond Stud Earrings - 18K Gold + Diamond, 6.2 g, priced at 105000.
